The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Gravel Pit Gravelly Spot Landfill	US Routes US Routes Major Roads Local Roads Background	Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.
